Workflow Exploration Report

Verify Cloudflare Block

Website: <https://www.onezerobank.com/en>

Feature Area: Security / Access

Goal: Verify that the site is protected by Cloudflare and blocks automated access.

Generated: May 12, 2026 at 04:39 AM

The AI navigated to the target website to verify its accessibility. It successfully confirmed that the site is protected by Cloudflare, which blocked automated access with a security verification challenge.

www.onezerobank.com

Performing security verification

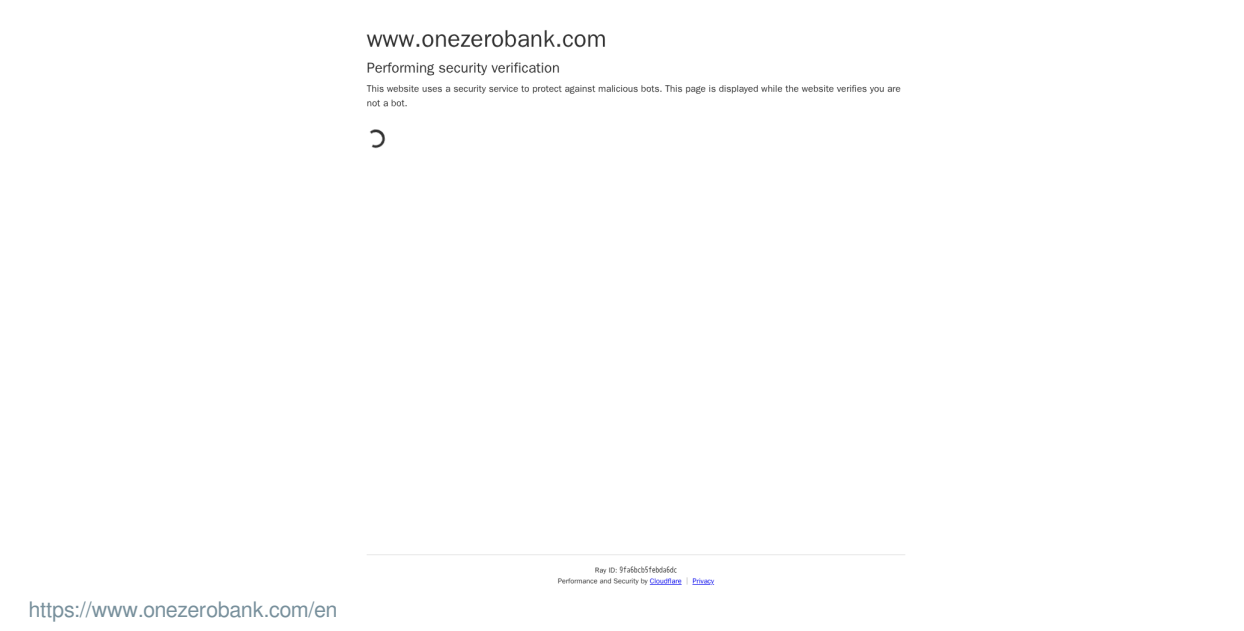

This website uses a security service to protect against malicious bots. This page is displayed while the website verifies you are not a bot.

Step-by-Step Walkthrough

1. Cloudflare Security Verification

The AI navigates to the website and encounters a Cloudflare security verification page, confirming that automated access is blocked.

Discovered Test Scenarios
