

ROOST AI

Workflow Exploration Report

Filter and Search Transfer History Records

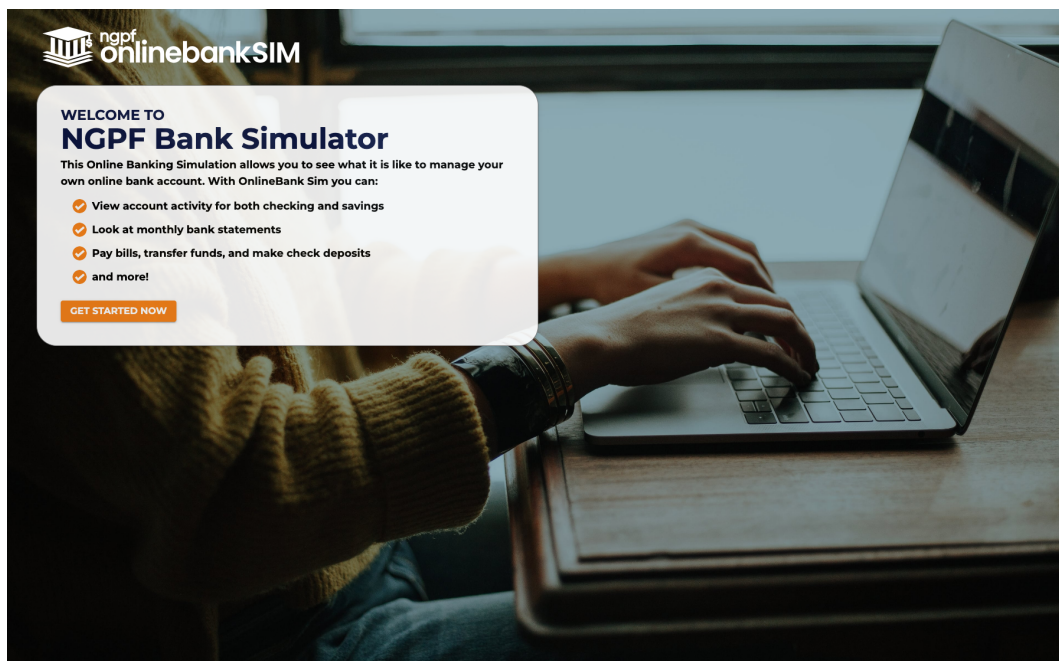

Website: <https://www.ngpf.org/bank-sim>

Feature Area: Transfer History and Management

Goal: Filter and search completed/scheduled transfers by account, date, and description. Validate table updates correctly and empty states are handled when filters are too restrictive.

Generated: March 22, 2026 at 06:13 PM

The AI successfully navigated the NGPF Bank Simulator, created a new transfer between accounts, and demonstrated filtering and searching transfer history. The workflow verified that completed transfers appear in the Past Transfers table and showed how restrictive filters produce an empty table state with management actions disabled.

Step-by-Step Walkthrough

1. Bank Simulator Landing Page

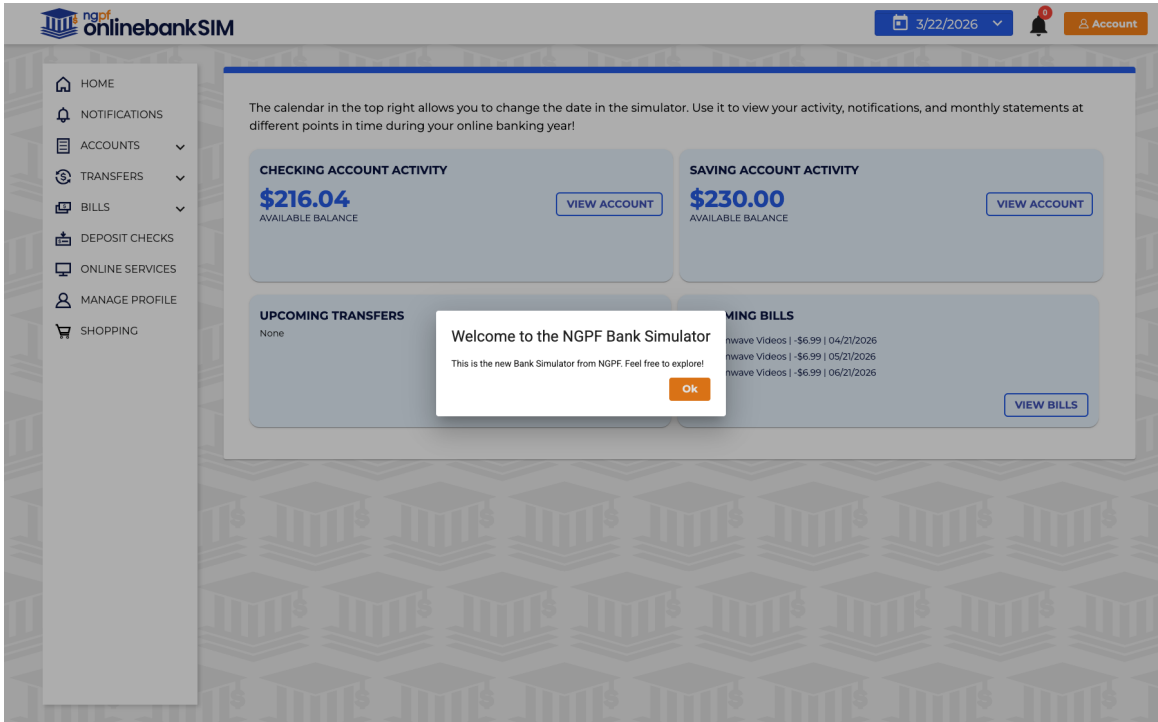

The AI starts the workflow at the NGPF Bank Simulator welcome page, ready to simulate personal banking activities.

about:blank

2. Dashboard Introduction Popup

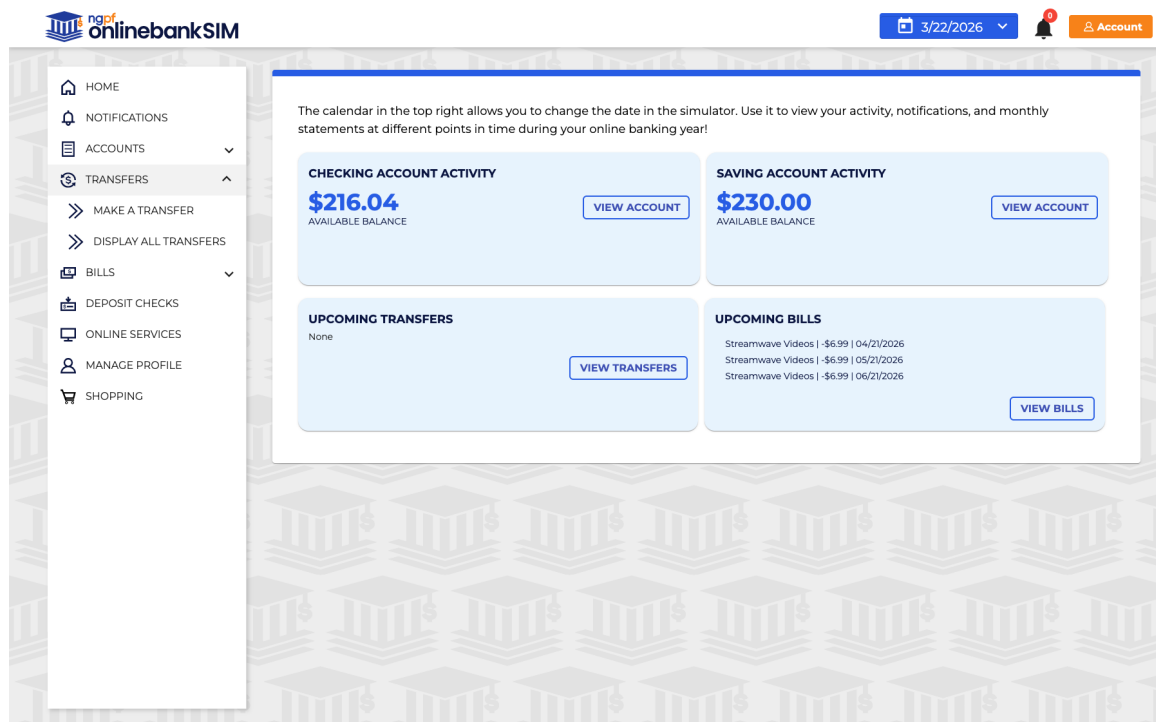

After login, an introduction popup explains the simulator's features, with checking and saving balances shown on the dashboard.

about:blank

3. Open Transfers Menu

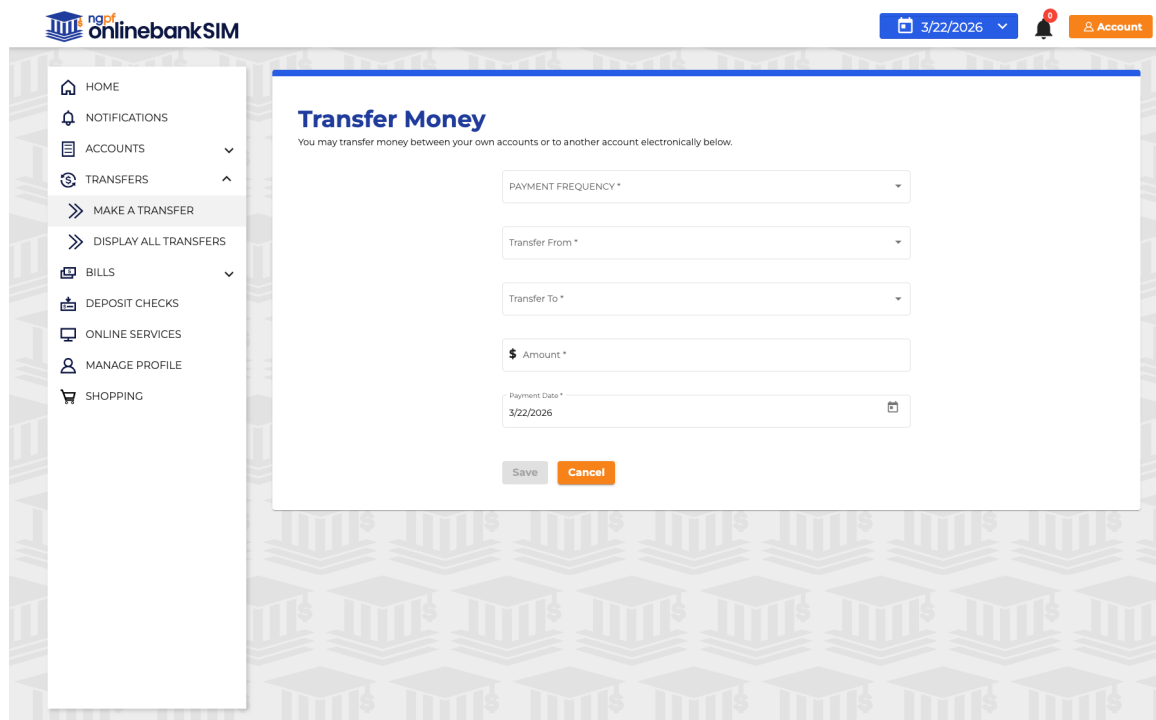

The AI expands the Transfers sidebar menu to access options for making or displaying all transfers.

<https://www.ngpf.org/bank-sim/>

4. Initiate New Transfer

The AI opens the transfer money form where the account, frequency, amount, and date are entered.

<https://www.ngpf.org/bank-sim/>

5. Select Frequency and Accounts

The AI selects 'Single' as the frequency, then chooses from available checking and saving accounts for the transfer.

9. Filter Produces Empty State

After typing restrictive keywords, the filter returns no records, demonstrating correct handling of empty table states.

Filter and Search Transfer History Records

Filter and search completed/scheduled transfers by account, date, and description. Validate table updates correctly and empty states are handled when filters are too restrictive.

The AI successfully navigated the NGPF Bank Simulator, created a new transfer between accounts, and demonstrated filtering and searching transfer history. The workflow verified that completed transfers appear in the Past Transfers table and showed how restrictive filters produce an empty table state with management actions disabled.

- Navigate to <https://www.ngpf.org/bank-sim>
- Click 'GET STARTED NOW'
- Click 'OK'
- Expand 'TRANSFERS' sidebar and click 'DISPLAY ALL TRANSFERS'
- Click 'Checking' or 'Saving' above Past Transfers to filter by account
- Enter keywords (e.g., '03/22/2026', 'Transfer') in Search field to filter by date or description
- Observe table displays only matching records; if filters exclude all data, table shows '0 of 0' and disables management actions
