Initiate Digital Mortgage Application

Website: <https://mortgage.leumi.co.il>

Feature Area: Digital Mortgage Application

Goal: Start a new digital mortgage application process. Success: Redirected to the external FormTitan application.

Generated: April 24, 2026 at 01:46 PM

Confidence: 95%

The AI navigated to the Leumi digital mortgage homepage to start a new application. It attempted to click the 'Let's start' button, but the expected redirection to the external FormTitan application did not occur. This resulted in a partial flow, as the external form failed to load.

Step-by-Step Walkthrough

1. Mortgage Homepage Loaded

The AI navigates to the Leumi mortgage homepage, displaying the 'Let's start' button to initiate the application.

Discovered Test Scenarios

#	Scenario	Type	Priority
1	Initiate Digital Mortgage Application -- Partial	partial_flow	high

Initiate Digital Mortgage Application -- Partial

Attempt to start the digital mortgage application. The flow is partial because the expected external redirect did not occur.

The user navigates to the Leumi mortgage homepage and clicks the 'Let's start' button. The agent expected to be redirected to an external FormTitan application but was instead routed to an internal minisite page, blocking further progress.

- Ensure to handle potential redirects after clicking the start button.
- Add an assertion to verify the resulting URL. In this partial flow, it lands on /minisite/mortgage instead of the expected external app.
