Workflow Exploration Report

Submit a Single Transfer Between Accounts

Website: <https://www.ngpf.org/bank-sim>

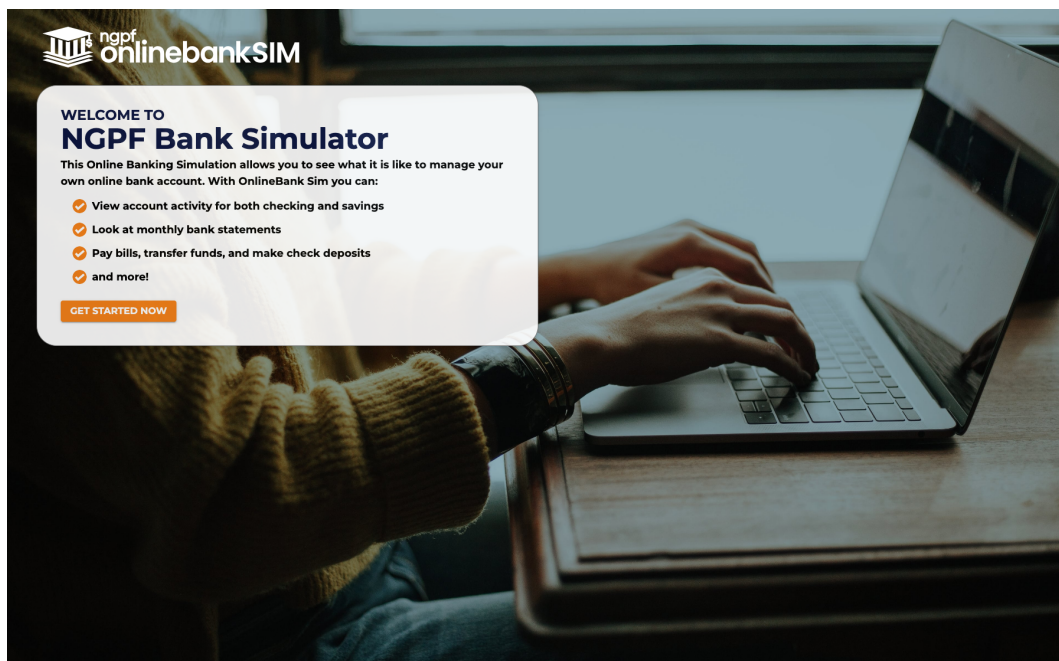

Feature Area: Transfer Funds Workflow

Goal: Successfully transfer funds between Checking and Saving accounts using the Make a Transfer form. Ensure confirmation and correct entry in transfer history.

Generated: March 22, 2026 at 09:09 PM

Confidence: 95%

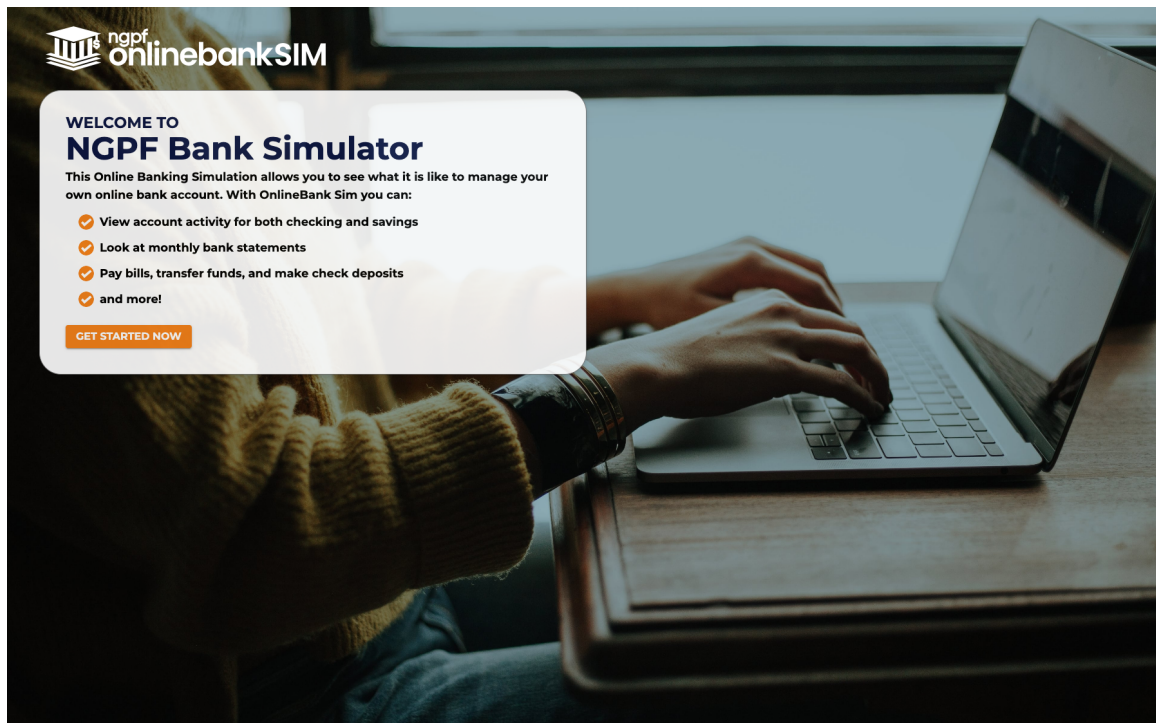

The AI successfully performed a single funds transfer from the Checking to the Saving account in the NGPF Bank Simulator. The workflow included navigating through onboarding, completing the transfer form, and verifying both real-time confirmation and the correct entry in the past transfer history.

Step-by-Step Walkthrough

1. AI Visits Bank Simulator Homepage

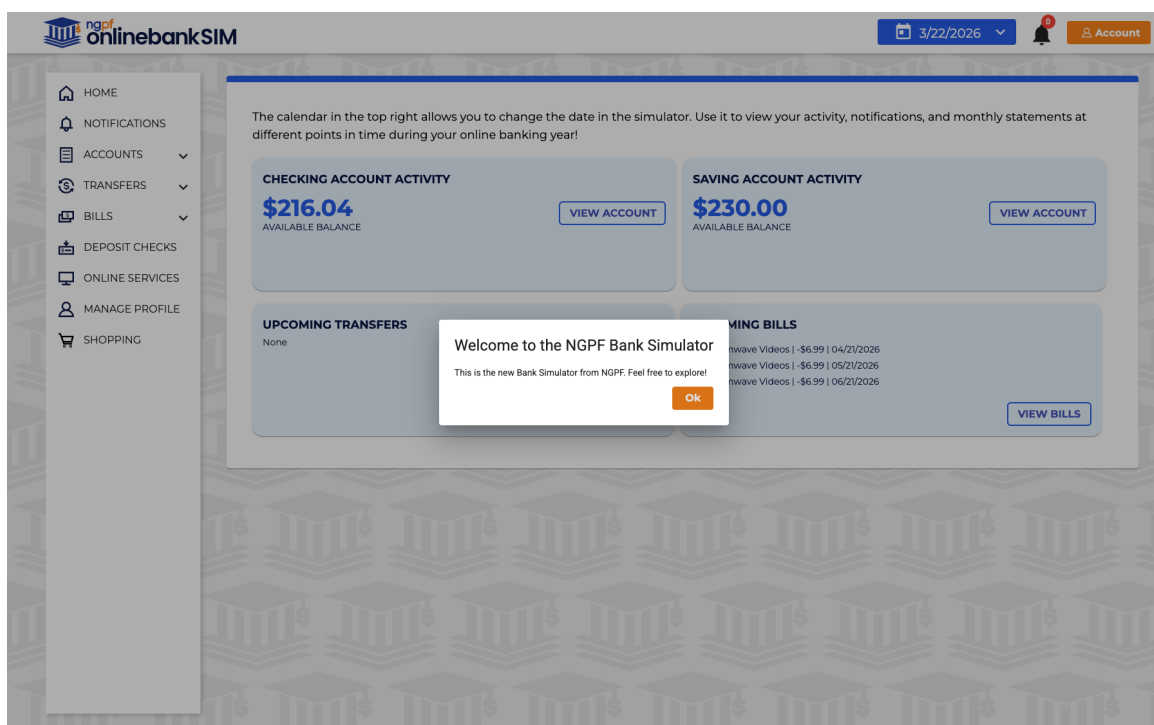

The AI loads the NGPF Bank Simulator homepage, ready to begin the online banking workflow.

<https://www.ngpf.org/bank-sim>

2. Dashboard and Onboarding Modal

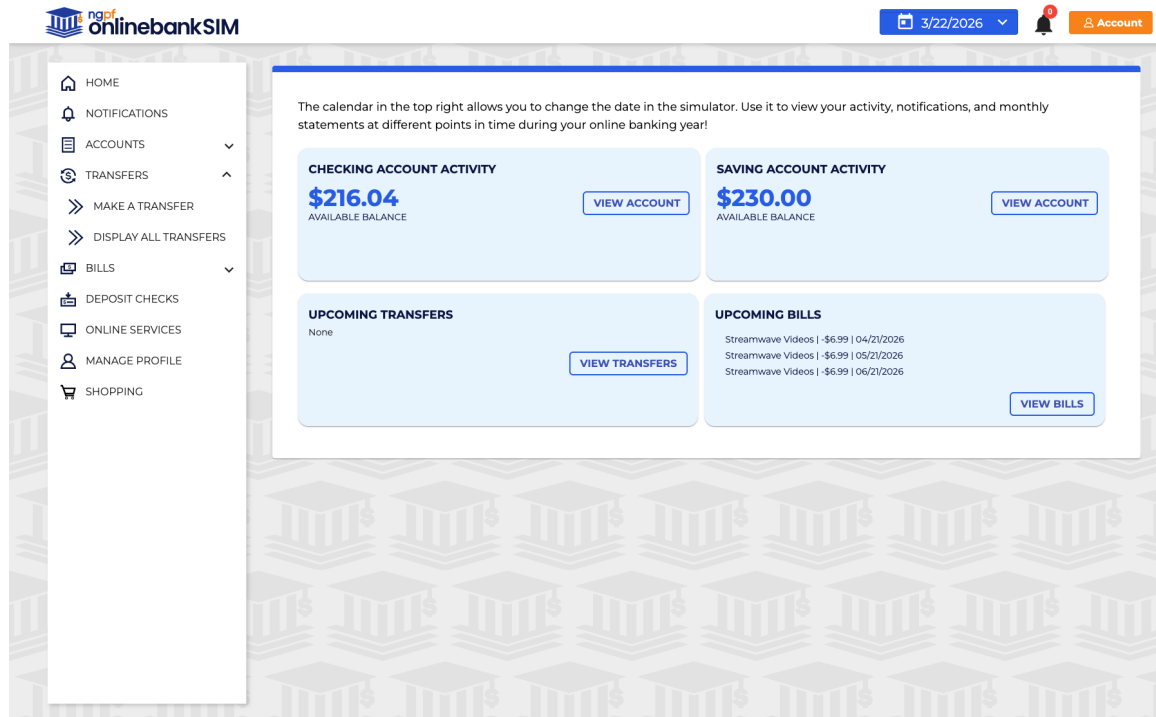

The AI accesses the dashboard, where an onboarding modal appears to welcome the user to the platform.

<https://www.ngpf.org/bank-sim/home?returnUrl=%2F>

3. Transfers Sidebar Expanded

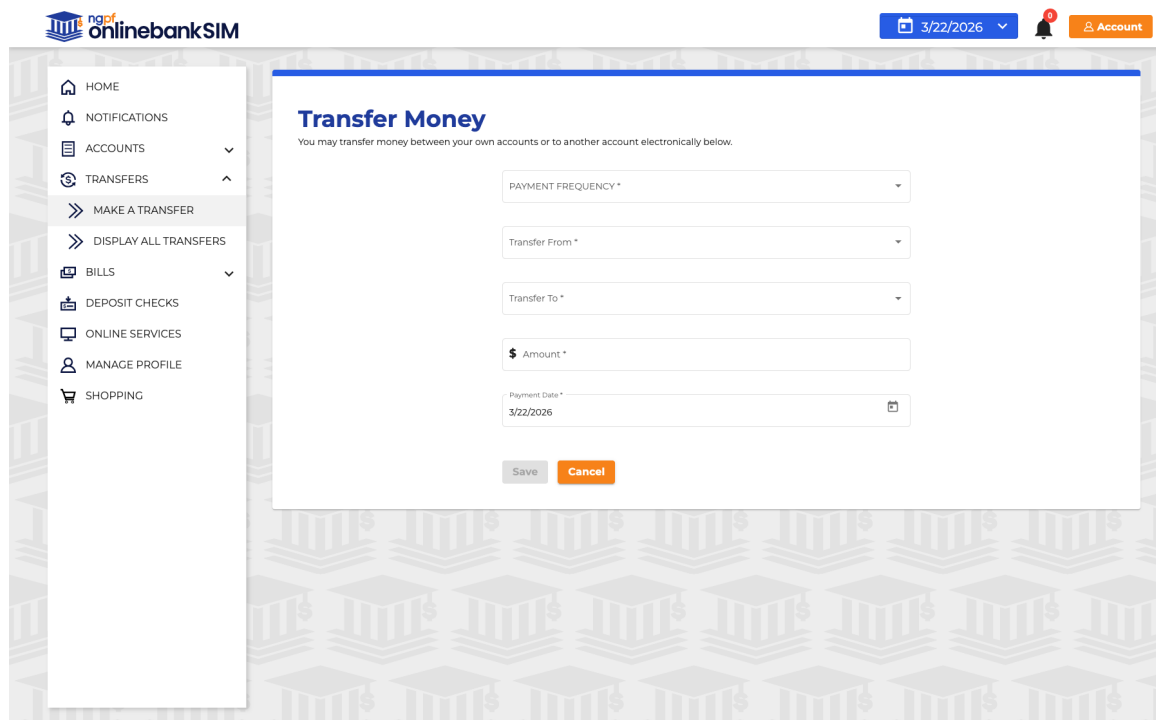

The AI expands the TRANSFERS menu in the sidebar, revealing options to make or display transfers.

<https://www.ngpf.org/bank-sim/>

4. Transfer Money Form Opened

The AI opens the 'Make a Transfer' form, preparing to initiate a funds transfer between accounts.

<https://www.ngpf.org/bank-sim/>

5. Payment Frequency Selection

The AI opens the PAYMENT FREQUENCY dropdown, displaying options for SINGLE and MONTHLY transfers.

13. Transfer Confirmed in History

The workflow concludes with a confirmation notification and the new transfer accurately appearing in the past transfers history.

Discovered Test Scenarios

#	Scenario	Type	Priority
1	Discovered Workflow: e2e_business_workflow - Complete User Journey	e2e_business_workflow	high

Discovered Workflow: e2e_business_workflow - Complete User Journey

Comprehensive test covering the user's journey to transfer funds between Checking and Saving accounts, and verification in transfer history.

A student logs into the NGPF Bank Simulator, dismisses the onboarding modal, expands the sidebar, navigates to the transfer form, and completes a transfer from Checking to Saving. The workflow includes entering all details and verifying confirmation as well as the transfer history entry.

- Use `waitForSelector` on modals and snackbars for confirmation.
- Use the `'all_selectors'` array for robust locator fallback.
- Respect Shadow DOM parents where `'web_component_parent'` is given (use `pressSequentially`)
- Validate transfer history post-submit for business result.
- Each input field and dropdown interaction requires selector capture step as shown.
