Workflow Exploration Report

Deposit a Check and Confirm Posting in Account Activity

Website: <https://www.ngpf.org/bank-sim>

Feature Area: Check Deposit Simulation

Goal: Simulate check deposit by entering amount, selecting account, uploading required images, and confirming deposit. Success: user receives confirmation message and a new deposit record is visible in Account Activity.

Generated: March 22, 2026 at 08:44 PM

Confidence: 95%

The AI successfully executed a full check deposit workflow in the bank simulator. It navigated from the homepage, deposited a check by entering details and uploading images, and confirmed that the deposit was reflected in the account activity with a confirmation message displayed. This end-to-end process validates both the submission and account update functionalities.

Step-by-Step Walkthrough

1. Bank Simulator Homepage

The AI loads the NGPF Bank Simulator homepage, preparing to start the check deposit workflow.

<https://www.ngpf.org/bank-sim>

2. Welcome Modal Displayed

A welcome message is shown after clicking 'GET STARTED NOW', signaling entry into the simulator environment.

<https://www.ngpf.org/bank-sim/home?returnUrl=%2F>

3. Deposit Checks Form Opened

The AI navigates to the 'Deposit Checks' section, where it can begin simulating a new check deposit.

5. Checking Account Selected

The AI chooses the 'Checking' account, setting the destination for the deposit.

<https://www.ngpf.org/bank-sim/deposit-check>

6. Deposit Amount Entered

A deposit amount of \$100.00 is entered into the check deposit form by the AI.

<https://www.ngpf.org/bank-sim/deposit-check>

7. Upload Check Front Image

The AI initiates the upload process by displaying the modal with the front side of the check.

<https://www.ngpf.org/bank-sim/deposit-check>

8. Upload Check Back Image

The AI displays the modal to upload the back side of the check, fulfilling all check image requirements.

Discovered Test Scenarios

#	Scenario	Type	Priority
1	Discovered Workflow: e2e_business_workflow - Complete User Journey	e2e_business_workflow	high

Discovered Workflow: e2e_business_workflow - Complete User Journey

Comprehensive test covering the deposit check simulation end to end: from initial navigation, through deposit form completion, required image uploads, to confirmation and activity check.

A user navigates to the NGPF Bank Simulator to practice depositing a check. They walk through the main dashboard, select the 'Deposit Checks' menu, choose the correct account, input the deposit amount, upload both front and back check images, and successfully submit the deposit. Confirmation via on-screen banner and transaction record in Account Activity completes the journey.

- Use `waitForSelector` to handle modals and menu transitions.
- Interact with Shadow DOM parents using `pressSequentially` if `web_component_parent` is present.
- Always reference the provided `all_selectors` list for each step.
- Confirm presence of success banner and new row in Account Activity after submission.
