Workflow Exploration Report

Navigate to Bank Shopping & Rewards

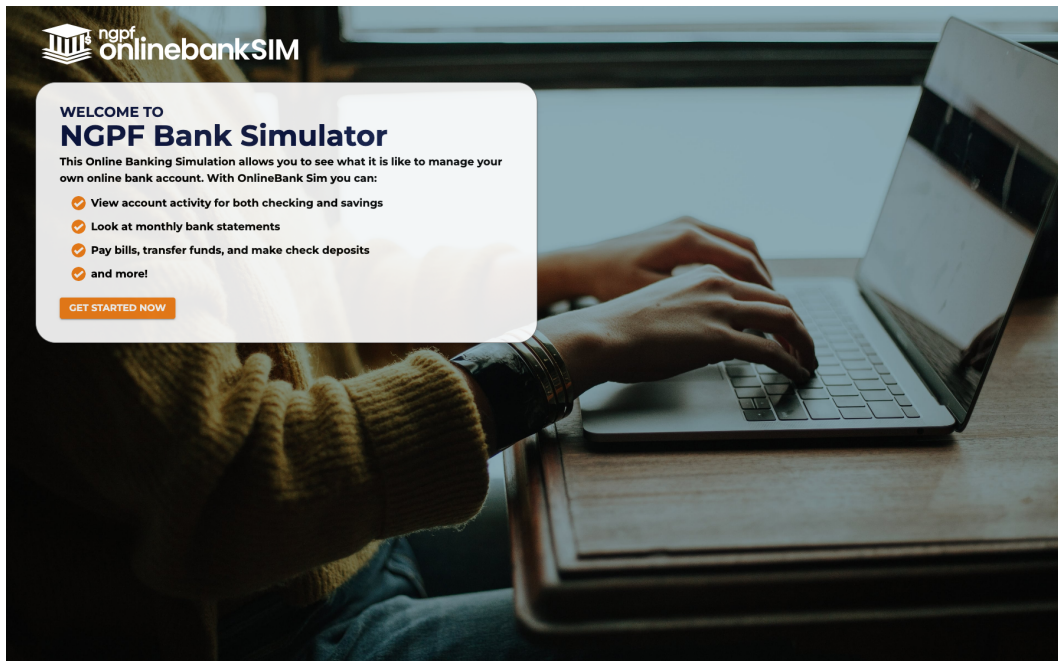

Website: <https://www.ngpf.org/bank-sim>

Feature Area: Bank Shopping & Rewards

Goal: Navigate to the Bank Shopping & Rewards area and verify the page loads correctly with expected content.

Generated: March 22, 2026 at 08:28 PM

The AI navigated to the Bank Shopping & Rewards section, showcased available shopping options, and completed a purchase. The workflow concludes by verifying that the transaction is reflected in the Account Activity ledger and confirmed by a success notification.

Step-by-Step Walkthrough

1. Welcome to Bank Simulator

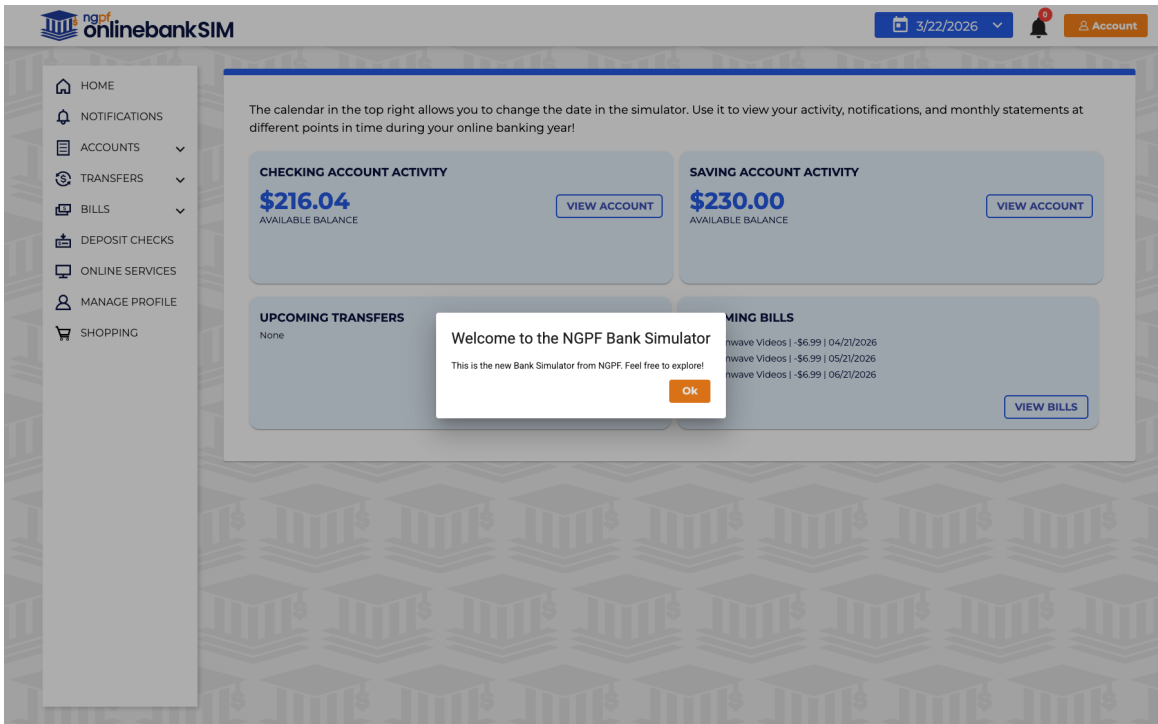

The AI lands on the NGPF Bank Simulator's welcome page, displaying the main features and a call-to-action to get started.

about:blank

2. Home Dashboard Overview

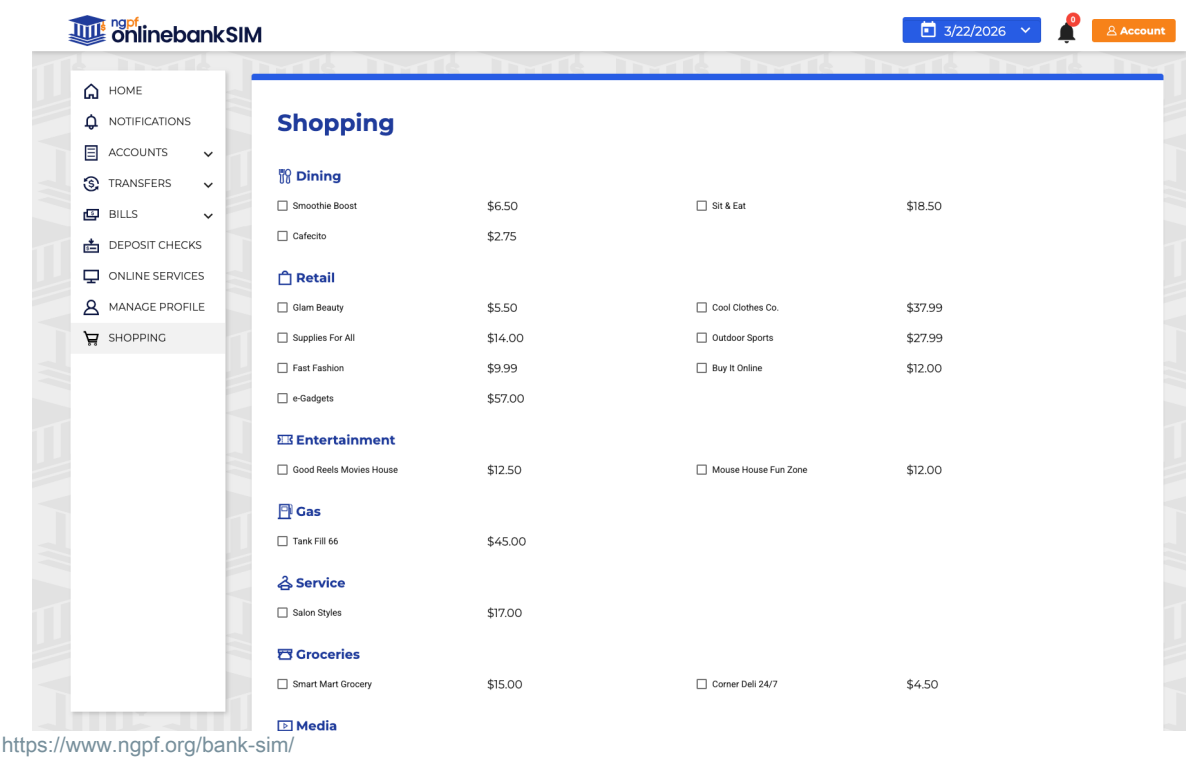

The AI enters the simulator dashboard, showing account balances and a welcome modal for new users.

3. Shopping Options Displayed

The AI navigates to the Shopping page, where users can see and select from a range of available retail, dining, entertainment, gas, service, groceries, and media options.

4. Transaction Successfully Added

The AI verifies that the new purchase ('Smoothie Boost') appears in the Account Activity table and the green toast confirms the transaction was added successfully.
