Workflow Exploration Report

Internal Fund Transfer

Website: <https://www.ngpf.org/bank-sim/home>

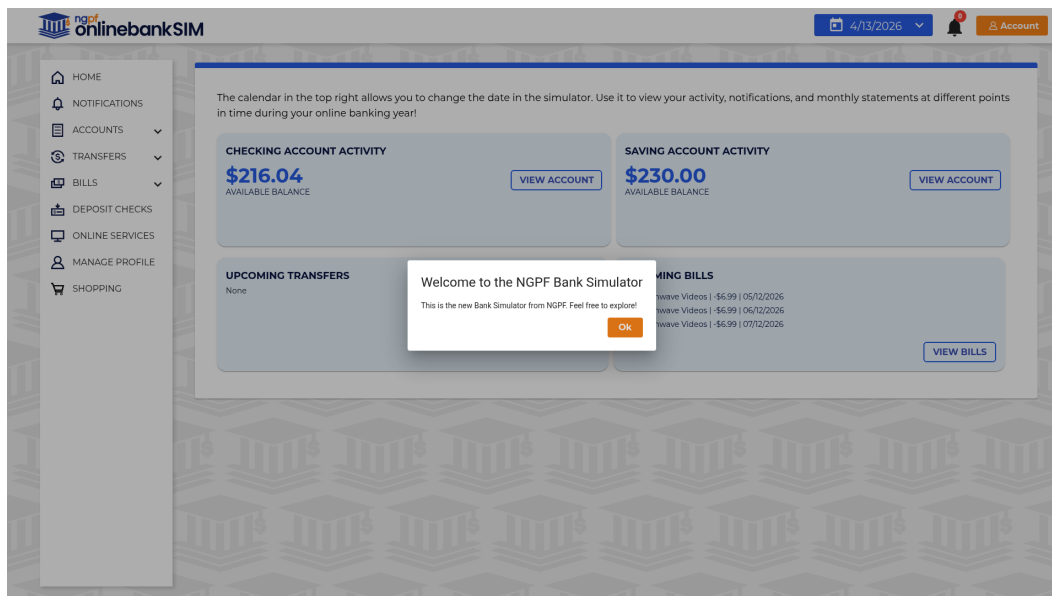

Feature Area: Financial Literacy and Banking Simulation

Goal: Verify users can complete the internal fund transfer workflow.

Generated: April 13, 2026 at 05:02 AM

Confidence: 98%

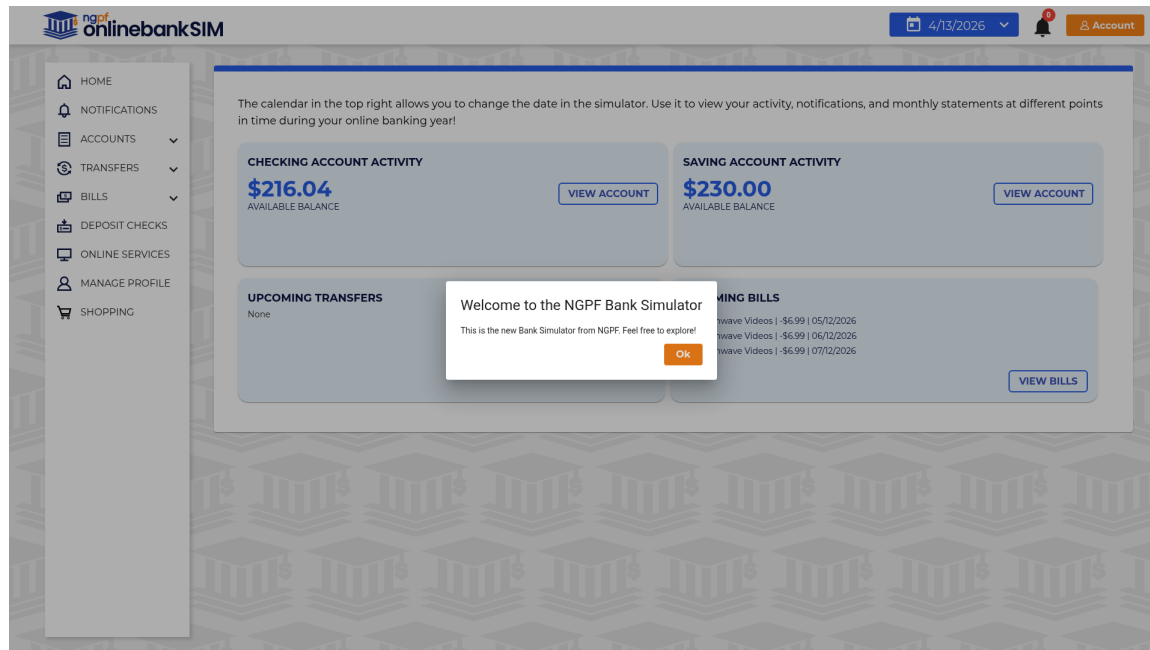

The AI successfully navigated the NGPF Bank Simulator to complete an internal fund transfer. The process included logging into the dashboard, selecting the transfer module, configuring a single transfer from checking to savings, and verifying the transaction completion.

Step-by-Step Walkthrough

1. Accessing the Banking Dashboard

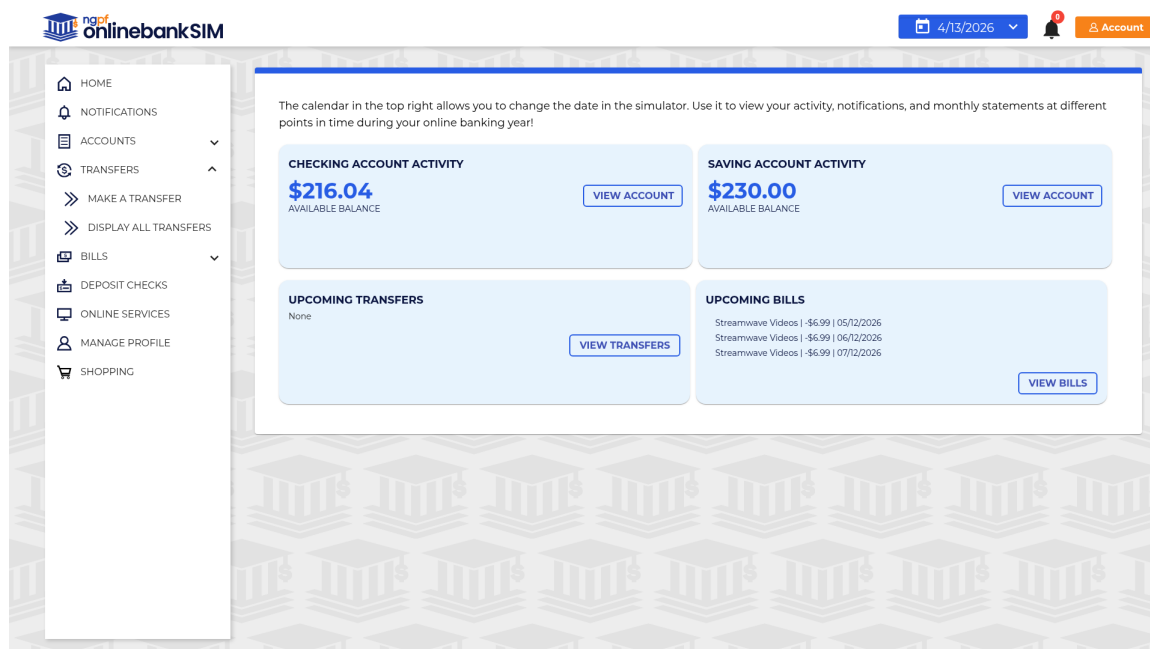

The AI navigates to the simulation homepage and dismisses the welcome modal to access the user dashboard.

<https://www.ngpf.org/bank-sim/home?returnUrl=%2Ftransfer%2F>

2. Opening the Transfers Menu

The AI expands the navigation menu and selects the 'Make a Transfer' option to begin the transaction process.

<https://www.ngpf.org/bank-sim/>

3. Selecting Transfer Frequency

The AI selects 'Single' from the payment frequency dropdown menu to configure a one-time transfer.

7. Transfer Confirmation

The AI submits the transfer and verifies the success message, confirming the funds were moved to the savings account.

Discovered Test Scenarios

#	Scenario	Type	Priority
1	Discovered Workflow: e2e_business_workflow - Complete User Journey	e2e_business_workflow	high

Discovered Workflow: e2e_business_workflow - Complete User Journey

Comprehensive test covering the internal fund transfer process from dashboard to confirmation.

The user starts the simulation, navigates to the transfers section, selects account details, inputs the transfer amount, and submits the transaction.

- Use `page.waitForURL` to ensure navigation completes after clicking 'Save'.
- The application uses Angular Material; ensure elements are interactable before clicking.
